Ref: Offer for Computer Vision Intern

Dear Hemant,

We at Tarsyer are pleased to offer you the position of a Computer Vision Intern starting from July 27, 2020 and will be for a period of four months. Your working hours would be from 9:30 to 6:30pm from Monday to Friday. For the duration of the internship you will be paid a monthly stipend that will be the equivalent of Rs 20,000 per month.

While working as an intern, you will solve several complicated problems in the manufacturing domain using all the cutting edge ML tools, CV technologies and frameworks (Keras, Tensorflow, Pytorch, OpenCV, Python). We expect that you will go out and research on latest developments in this fields and design cost efficient and accurate solutions.

Confidentiality: In the course of your employment, the Company will further provide you with one or more of the following: access to Trade Secrets, Account Passwords, Payment Tools (like credit cards and Payment gateways) and other Confidential Information of the Company; contact with Company vendors and suppliers; contact with Company customers; contact with Company employees who possess Trade Secrets, Account Passwords, Payment Tools and Confidential Information; and other support to help develop goodwill for the Company with the its vendors, suppliers, and customers. By signing this letter, you agree to keep this information confidential and within your control always. All private information will be returned to the Company immediately at the end of your internship.

 Kindly send the following documents as soon as possible:
1.   Educational Certificates: 10th, 12th and graduation
2.   Identity Proof
3.   Address Proof
4.   1 passport size photograph

Following are some points that you need to take note of:

- Ours is a very open company. Please feel free to call in case you have any doubts at any point in time
- All the information you access here is considered confidential. Please do not share with anyone else or discuss with your classmates or colleagues
- Please make sure you check in at least every alternate day and update us about the progress made
- Make sure all code, algorithms, workflows you develop are documented properly so that it can be used by someone else later
- Successful completion of the internship happens when you complete all the assigned tasks and handover all code and documentation. In case you leave abruptly or do not do a complete handover, your internship will be incomplete and you will not be paid the stipend.
- At the completion of the internship you must delete all code, documentation, data related to the internship from your laptop and all other electronic sources

At the end of the internship we will jointly discuss and work out a permanent position. The assumption is that at some point during the internship you will be able to make a permanent move to Pune. We do not want our permanent employees to be working out of other cities.

Ours is still a new company, and we are one of very few companies in India working on DL approaches to solve factory problems. We are still growing rapidly and changing quickly. We expect that you will contribute in all aspects while we work towards our goal of building a packaged software product to deliver value to our customers. It is absolutely important that you keep confidential all the work and information that passes through these offices. We also expect you will put in your very best so that we delight our customer as the company and you go to greater heights.

Congratulations and we look forward to working with you.

Sincerely,

Venky Nayar
